- PROJECT TITLE NAME: Achieve gender equality and empower all women and girls. Goal number: 5 Category: Climate Crew (Category 3) Project Description and Insight "IT IS TIME THAT WE ALL SEE GENDER AS A SPECTRUM INSTEAD OF TWO SETS OF OPPOSING IDEALS". The project gives an overall information about the treatments against different genders and not only women. Gender equality is achieved when women, men, girls, and boys have equal rights, conditions and opportunities, and the power to shape their own lives and contribute to the development of society. It is a matter of equitable distribution of power, influence, and resources in society. We have listed steps to avoid discrimination and racist activities against all genders. The one and only international aim is to make this world a better place where all genders are treated equally. It's a long-term project so that we can come up with the best ideas to represent this. Gender equality as a subject is going on for years and years but has made a very less impact around the world. It is not being implemented in many parts of the world when it's the basic human right. Changing the thought processes of the older generation is not easy as it seems to be, everybody has their own beliefs and experiences about different genders and sexualities, but we just want to teach them that the new generation accepts all genders. LET'S STEP FORWARD TOGETHER... THANK YOU!!
